## FOREWORD.

---

The Baby Welfare Committee is composed of about 175 individuals and organizations actively engaged in Infant and Child Conservation in Montreal and elsewhere in Canada. Founded and incorporated in 1917. Non-sectarian and non-racial. Our Objects are:—

1. The study of Child Hygiene in all its phases.
2. The dissemination of knowledge concerning Child Hygiene and the methods and measures of preventing morbidity and mortality amongst children.
3. The stimulation and encouragement of measures for promoting the health of children.

The Baby Welfare Committee is actively co-operating with the various Federal, Provincial and Municipal Health Departments, and all national and international health organizations.

### SOME OF THE COMMITTEE'S ACCOMPLISHMENTS.

1. Commenced an intensive Survey of home and living conditions of the children of Montreal under 2 years of age during the Summer months of 1918 through the medium of our "**Travelling Motor Health Clinic,**" with staff of three qualified nurses and physician. The results of this Survey have conclusively shown why the Montreal Child dies in such unparalleled numbers.

2. As a result of an investigation conducted in 1919, we effected a complete exposure of the Montreal "**Baby-Farms**" (Boarding-Out Homes, By-law 93). This question is now being rectified by the Civic Commission as a consequence of this Committee's initiative.

3 We were the only organization that entered a protest, with necessary follow-up work, against the increased and increasing prices of a Baby's unsubstitutable food—Milk—before the Canadian Board of Commerce, with a continuous and active public and private campaign to improve the quality and methods of handling the Milk Supply of Montreal.

4. Effected several concrete exposures of Montreal's inefficient Health Department (Contagious Disease laxity; Medical School Inspection, etc.).

5. Awakened a community public health conscience concerning local health menaces as reflected upon the Baby by addresses delivered before many of Montreal's leading organizations.

6. Opened and successfully operated a Community Playgrounds, open air skating rink and a Baby Health Center in Victoriatown ("Goose Village"), where we found the imperative need of same. Gave milk free or at cost price.

7. Hold an Annual Child Welfare Exhibit in Montreal every May the 1920 Exhibit being the fourth consecutive accomplishment.

8. Through our Permanent Child Welfare Exhibit, we have commenced out-of-town activities: conducted a complete Exhibit at the 1919 Quebec City Exposition, and co-operated with the Halifax Child Saving Week Exhibit; co-operated with the Provincial Health Department of New Brunswick in loan of some Child Welfare films.

9. Co-operated with all progressive individuals and organizations in giving every Child born in Montreal and Canada a "Square Deal."

10. We failed (through no fault of our own) to bring the Rockefeller Foundation to Montreal in 1919 to give the authorities a neutral and authoritative investigation of Montreal's public health conditions.

## WHAT WE ARE TRYING TO ACCOMPLISH.

1. To put the word "Public" into Health; the making of Montreal a healthy community for its citizens, particularly its most fragile and important asset, the Montreal Baby.
2. To force the enactment of a Milk By-law (at present Montreal has no safeguard in this respect), compelling universal Pasteurization of our milk supply; to compel official licensing of milk vendors, thus rendering same subject to supervision and inspection.
3. Organize all agencies engaged in Child Conservation into a compact, efficient and constructive organization that will deal with our particular problems in a thorough, business like manner.
4. To create through publicity a public health conscience among the citizens of Montreal and Canada.
5. To operate an extension of our (the first in Canada) "Travelling Motor Health Clinic" through the Province at large, thus bringing prevention and treatment to every mother in the Province and thereby lowering Quebec's monstrous Child wastage.
6. Enlarge the scope of activities of our "Travelling Health Clinic," with wider use of our several public health films, etc.
7. To have the Medical Inspection of Schools come under the supervision of the School Boards directly, and to have the theory and practise of health taught in the school curriculum.
8. To organize a National Child Welfare Association of Canada, and through this medium and co-operating with the Federal Health Department, to construct a Canada-wide Child Welfare week in May, 1920.
9. Engaged at present on our 1920 Public Health Exhibit; our past experiences in the conduction and operation of Exhibits make this event an assured success—if this Committee had more substantial backing.

10. Various other indeterminate Child Welfare Experiments--as Nutritional Classes, School Lunches, etc.

11. In 1918, after a survey of several Departmental Stores in Montreal who were publicly and indiscriminately selling poisonous Child medication, a marked improvement in this respect followed the activities of this Committee.

All individuals or organizations interested in Child Welfare are eligible for membership in the Baby Welfare Committee. Application may be made to the Executive Secretary, Baby Welfare Committee, Room 317, Drummond Building, Montreal, enclosing one dollar in case of individual membership fee, or five dollars if an organization.
